

WOODPECKER
NATURALLY INSPIRED FLOORING

2021 | 2022

THE LINE

the line
the descendants of a common ancestor,
a row of trees,
a cord used in measuring or levelling,
a long, thin mark made by a pencil, pen or chalk,
a similar mark cut in a hard surface,
a crease in the palm,
a plan of; making or doing,
an assembly of merchandise,
a course of conduct, action, explanation,
a person's trade or occupation,
a furrowed brow,
a stock of goods of a particular type,
the field of one's special knowledge,
a short letter or note,
a row of persons waiting in turn.

Follow the line from us to you.

From generations past,
for generations to come
- we are Woodpecker.

From our family to yours... for 100 years.

THE WOODPECKER STORY

FOR 100 YEARS
GONE BY, AND FOR
100 YEARS TO COME

The Woodpecker story began in 1973 in a small garage in Bristol. Started by Bruce Ker, the passion for wood and commitment to deliver the absolute best has been handed down through 3 generations to his son Nelson, and grandson Darwyn today.

From humble beginnings...

FROM OUR FAMILY TO YOURS

Today our extended family of 'Woodpeckers' are committed to those same values, genuinely caring and doing whatever it takes to make the difference for you and your family.

YOU CAN WATCH THE
WOODPECKER STORY VIDEO HERE: 
woodpeckerflooring.co.uk/the-woodpecker-story

THE STORY OF OUR FLOORS

It begins long before this. Every Woodpecker floor started its life over 100 years ago, and tells its own story that will stand the test of time in your home.

FOR 100 YEARS

Our promise to you is that your Woodpecker floor will continue its story, bringing life and warmth to your home – guaranteed for 100 years to come.

LEAVING A LEGACY...

Planting the Woodpecker forest of tomorrow and becoming carbon negative by 2030 – this is our commitment to building a better future that generations to come will be proud of.

From 100 years past and for 100 years to come, Woodpecker is with you every step of the way on your journey to find the perfect floor.

...from our family
to yours for 100 years.

100 YEAR WARRANTY
WOODPECKER

WOODPECKER PROMISE

Peace of mind
for generations to come.

We are proud to bring you our unique
Woodpecker 100 year warranty.

Our passion for and knowledge of wood means
we are confident that our wooden floors
endure more than a lifetime, increasing in depth
and character over time as their story becomes
a part of your home.

Carefully grown, selected and crafted by
experts, every plank is a reflection of our
commitment to you and your home.

Our promise to you – beautiful floors and
peace of mind, for 100 years.

Please note that our Stratex® floors continue
to offer a market leading 25 year warranty

For T&Cs, please visit:

WOODPECKER PROMISE

SERIOUS ABOUT SUSTAINABILITY

Leaving a legacy,
for generations to come.

As a company with a rich past and benefiting every day from the commitments our ancestors made, nothing is more important to us than the legacy we leave for future generations.

Of course, all our wood is sourced from responsibly managed, sustainable forests and is fully certified to the highest standards. We also offer elegant bamboo floors, the most sustainable choice which grows even faster after cutting and regenerates every 5 years!

But that's not enough for us. We strive to improve and do our best every day, and so have committed to Woodpecker being the first carbon negative flooring company by 2030.

That commitment starts today - we are creating the Woodpecker forest of tomorrow, planting 50,000 oak saplings over 200 acres in the beautiful countryside around our home in South Wales, to ensure future generations continue to be inspired by the beauty of nature, past, present and future.

We are the ancestors of tomorrow; our legacy matters.

Elegant and exceptionally hard

STRATEX®

Incredibly stable limestone and resin core plus built in underlay

Waterproof embossed vinyl and real wood options

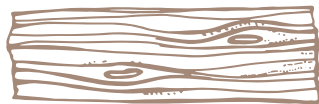

CHEPSTOW | ANTIQUE OAK 240MM

ENHANCING THE WOOD

FINISHES & GRADING

From neatly bevelled to handscraped, and from smoothly lacquered to sawn, we have the finish that will work perfectly in your home.

Clean

Character

SQUARE

A clean overall finish.

BEVELLED

A traditional and ordered feel.

DISTRESSED

A charming timeworn appeal.

HANDSCRAPED

An aged look, smooth to the touch.

This clean finish suits modern décor very well and can help a room to feel bigger than it is.

The depth of the slight groove between planks will depend on the type and grade of wood you choose.

Each plank is hand distressed on its edges to produce small grooves and undulations that are reminiscent of a naturally aged floor.

The irregular ridges and grooves that result add depth and definition to the wood's surface, creating an aged look that's distinctive by eye yet smooth to touch.

A NOTE ABOUT THESE SYMBOLS

Some of our floors are available in more than one finish. To help you identify the right one for you we've added these symbols to the product codes.

⊙ = Oiled finish

Ⓛ = Lacquered finish

∫ = Part of our 'Signature' range

Sawn finish celebrates texture

Kerfs from the saw marks are left on the boards to see and feel, as though the wood has been freshly cut in front of you.

Natural and authentic

Unfinished boards are supplied with knots pre-filled and are pre-sanded ready for final filling and finishing as you wish.

Lightly brushed to reveal the harder grain

The finish subtly highlights the wood's texture both to the eye and to the touch.

Oil brings wood to life

Each board is coated between five and seven times, and cured with a UV lamp between coats to produce a protective, muted appearance.

For the look of an oiled finish without the upkeep

With a dull satin sheen, the surface is smooth and hardwearing, as is true to a lacquer, but has the appearance of an oiled floor.

Extremely smooth and glossy

Five to seven coats of lacquer go onto each board, which is UV cured at each stage of the process.

SELECT

This grade looks natural yet consistent, with few knots. Up to 10% sapwood can be found in select boards along with considerable grain and colour variation, but only small knots.

RUSTIC

More of the wood's character shines through in rustic floors - including large knots, dark streaks, filled knots and colour variation. Again, up to 10% sapwood is likely in this grade.

EXTRA RUSTIC

Very little is graded out in the extra rustic category. Large knots, splits, cracks and any amount of sapwood make this a characterful choice, and mean that your floor will be all that more distinctive.

TIMELESS QUALITY

SOLID WOOD FLOORING

For a naturally beautiful floor
that will last a lifetime.

Nothing beats solid wood for a timeless natural texture and a robust feel beneath your feet. For a solid, traditional structure, each board is precision milled from a single piece of timber that has been carefully chosen and graded then machined with tongue and groove on all edges, to ensure a perfect fit when installed.

Our solid wood boards are carefully selected and harvested from responsibly managed forests in Europe and the Americas. From a traditional rustic oiled finish to a striking hand-scraped statement board, our solid wood range offers choices to complement both contemporary and traditional interior design.

The mark of
responsible forestry

All of our wood floors
are responsibly sourced
with FSC® certification.

YORK | TAWNY OAK

SOLID AND TRADITIONAL

Solid oak flooring is strong and durable with wonderful character. Classic knots and swirling grain patterns create a traditional look with beautiful texture. As oak ages, it also becomes richer and deeper in colour, making a floor that seems to live and mature with you.

YORK | RUSTIC OAK

RUSTIC | OILED | LACQUERED

© 36-YRO-150 | 150 x 300-1600mm | 1.98m²/pack **£79m²**

Ⓛ 36-YOR-150 | 150 x 300-1600mm | 1.98m²/pack **£79m²**

A traditional floor with rich honey hues and a medley of plank lengths laden with elegant knots, dark streaks and filled cracks to create a wonderfully classic feel. And the boards' natural details are enhanced by five coats of natural oil or subtle lacquer for a choice of beautiful finishes.

YORK | TAWNY OAK

RUSTIC | BRUSHED & MATT LACQUERED

36-YTO-150 | 150 x 300-1600mm | 1.98m²/pack **£84m²**

Presenting subtle brushed-out grain textures accentuated with rich burnt coffee tones, this elegant floor enhances the natural light and beauty of any room setting. The variety of plank lengths adds interest to this traditional yet surprisingly contemporary solid wood floor.

THE BEAUTY OF REAL WOOD

ENGINEERED
WOOD FLOORING

For added versatility and practicality

With a substantial real wood top layer, Woodpecker engineered wood flooring combines the beautiful character and style of a solid timber floor with the exceptional performance of our engineered board construction.

The central core of cross-layered softwood or plywood adds stability and is underpinned by a veneer layer for balance. This advanced construction minimises expansion, contraction and warping, and makes these beautiful boards suitable for modern day living and underfloor heating.*

Offering you the classic good looks of solid wood as well as outstanding versatility, engineered wood flooring is a perfect and practical solution for today's homes.

** Please note that Berkeley Century Pine is not suitable for underfloor heating.*

The mark of
responsible forestry

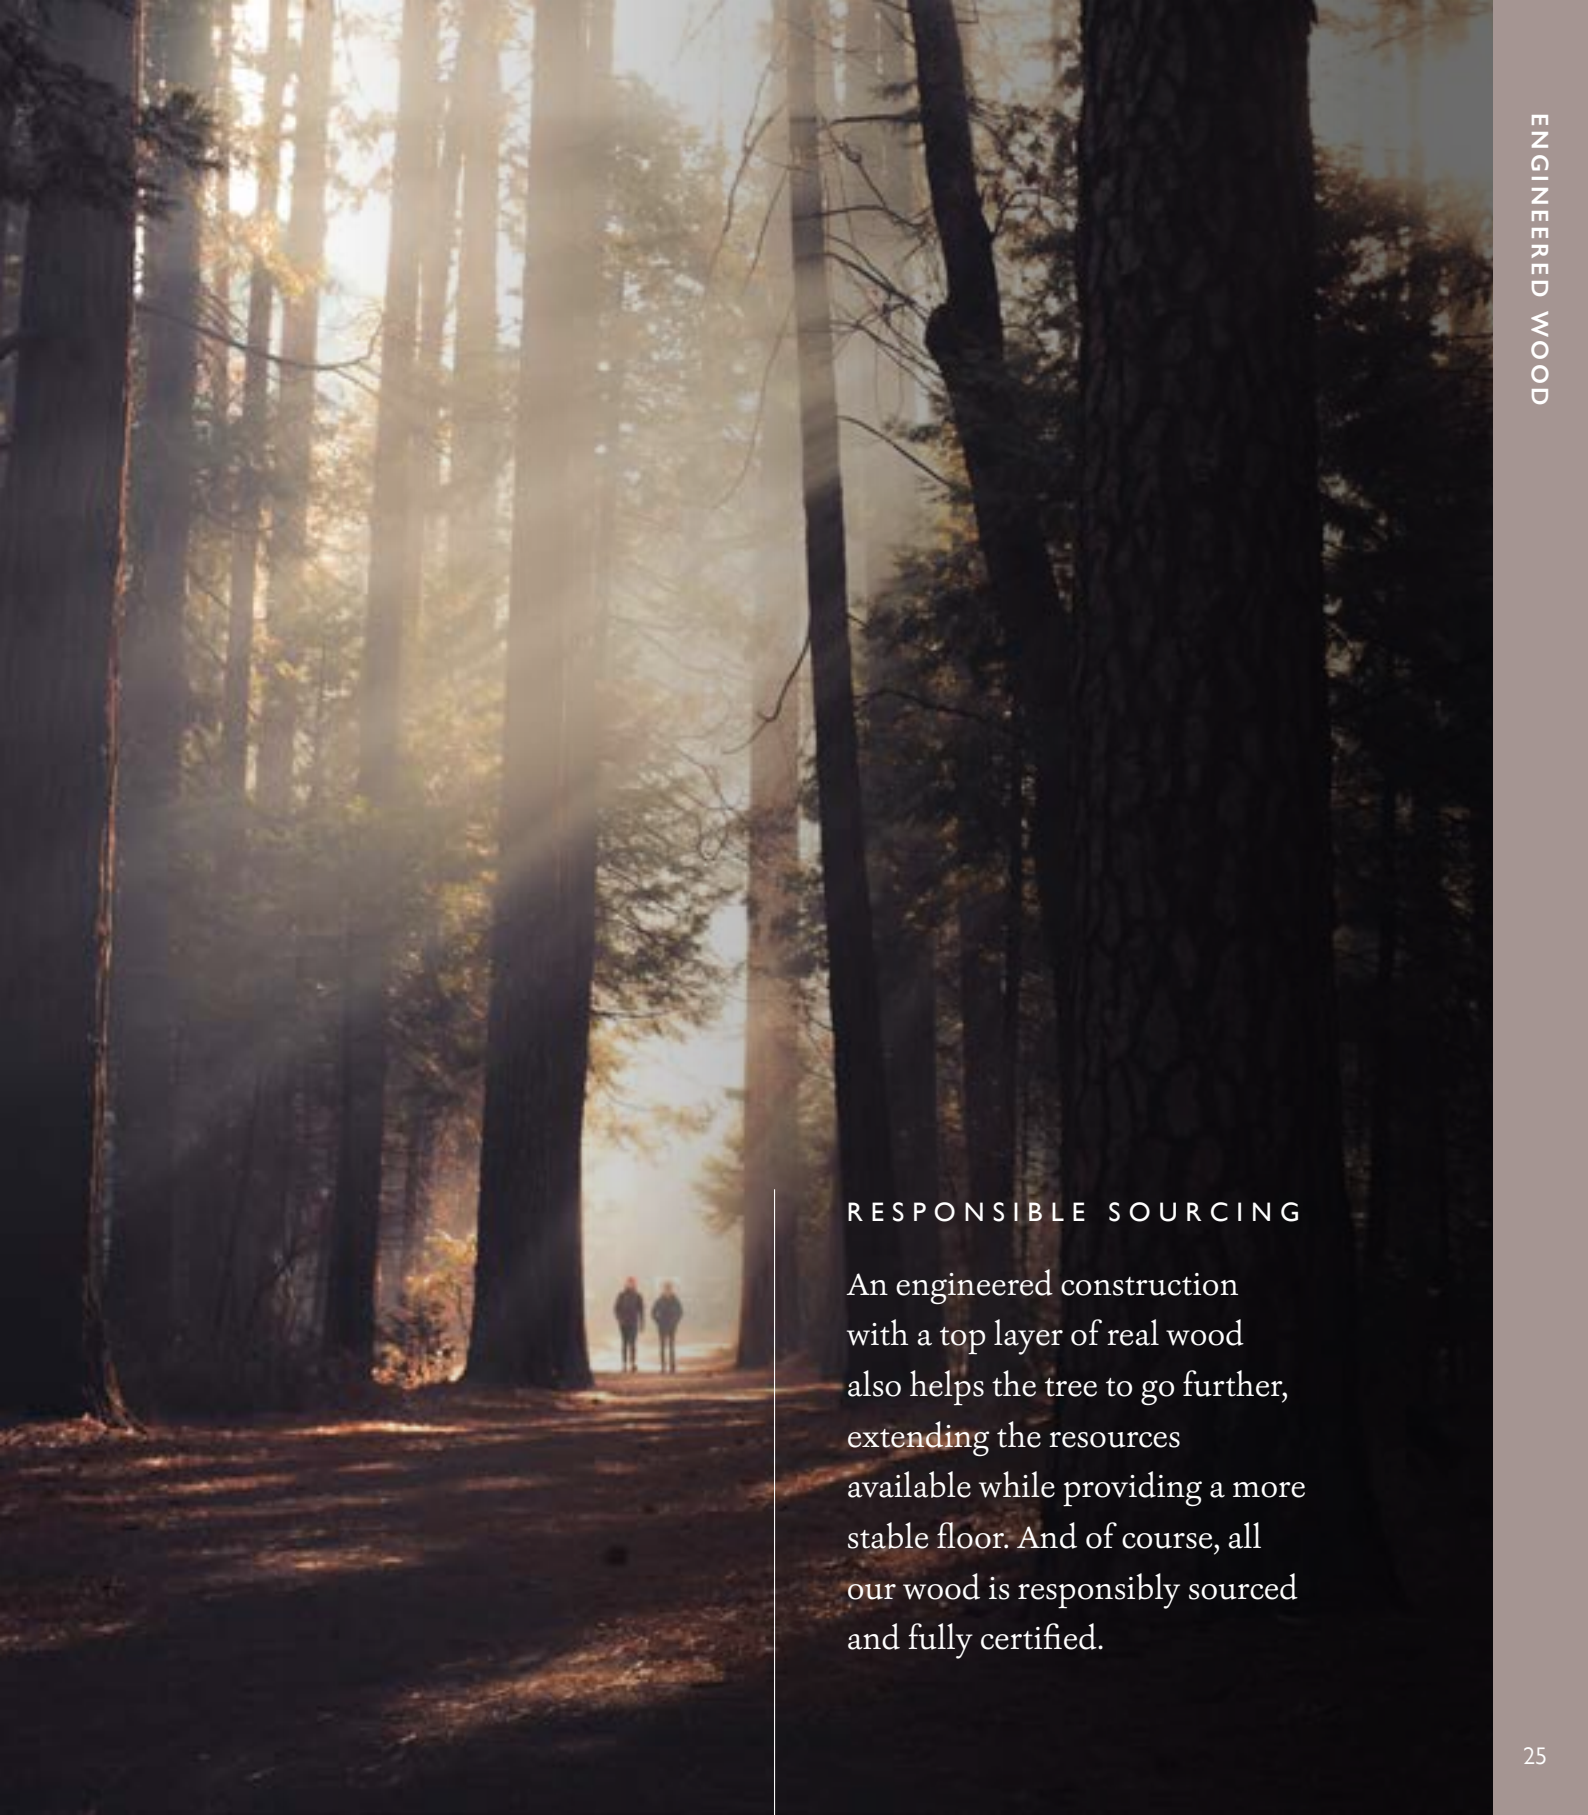

All of our wood floors
are responsibly sourced
with FSC® certification.

BERKELEY | CATHEDRAL OAK

PEACE OF MIND FOR
GENERATIONS TO COME

A photograph of a forest path with sunlight filtering through the trees and two people walking in the distance.

RESPONSIBLE SOURCING

An engineered construction with a top layer of real wood also helps the tree to go further, extending the resources available while providing a more stable floor. And of course, all our wood is responsibly sourced and fully certified.

SALCOMBE

MUTED NATURAL HUES

A wide range of subtle shades
bringing the light and vitality of
the seashore into your home

SALCOMBE | SEASHORE OAK
PHOTO CREDIT | @SHNORDIC

SMOKED FOR INTENSITY

Most of our Salcombe floors are specially treated using an age-old process called “smoking” which allows our experts to subtly enhance or intensify their beautiful tones by awakening the natural tannins in the timber. Offering more complexity than a simple stained board, these smoked colours add a new dimension to your floor.

GOODRICH | SALTED OAK

AN ANCIENT EFFECT

The traditional herringbone flooring design can be traced back as far as 500BC when the Ancient Romans used it when laying their famous roads. The staggered zigzag pattern is made up of wooden blocks cut smaller than traditional planks, creating a strikingly stylish look.

Stylish Herringbone

GOODRICH | COTTON OAK

RUSTIC | BRUSHED & MATT LACQUERED

32-GCT-001 | 90x400mm | 1.296m²/pack **£95m²**

The lightest of parquets, this floor adds a fresh, clean and elegant feel to a space. With a whitewashed finish and full of natural detail, each board is brushed to bring out the beauty of the grain and finished with a matt lacquer for a subtle sheen.

GOODRICH | WHITENED OAK

RUSTIC | BRUSHED & MATT LACQUERED

32-GWH-001 | 90x400mm | 1.296m²/pack **£95m²**

Light in colour with a contemporary blend of ashen and flaxen tones, these boards marry striking rustic character with varying natural hues. A classic herringbone design enhanced by brushing and a matt lacquer finish.

GOODRICH | FEATHER OAK

RUSTIC | BRUSHED & MATT LACQUERED

Also
available in
matching
plank

32-OGW-001 | 90x400mm | 1.296m²/pack£100m²

Calm white grains peek through the soft grey of this floor, creating a wonderfully clean and contemporary look. Smoking further enhances the subtle colour variations flowing across the boards, which are brushed to bring out the wood's natural texture. Matt lacquer adds a modern, muted finish.

Also available as a Harlech plank – see page 28.

BERKELEY | COTTAGE OAK

EXTRA RUSTIC | OILED

38-BDW-001 | 190x1860mm | 2.11m²/pack **£130m²**

Antique flooring is even more beautifully timeworn in this truly rustic design. Featuring chatter marks from the sawmill along the edges, each board bursts with the charming effects of a floor that's been laid fresh from the saw and smoothed by the tread of generations. The classic smoking treatment creates a depth of colour and a subtle oiled finish gives wonderful texture.

BERKELEY | CALICO OAK

EXTRA RUSTIC | OILED

38-BCC-001 | 190x1860mm | 2.11m²/pack **£130m²**

Dusky and daring, Calico Oak is a wood floor with drama. Boards are aged and distressed with realistic marks, dents and scuffed edges capturing the feel of a timber with a history. The wonderful grey and taupe tones in this unique design are brought to life by the smoking process and 5 coats of premium oil, which penetrate, protect and provide the wood with a subtle matt finish.

SMOKING FOR INTENSITY

Most of our Berkeley floors are specially treated using an age-old process called “smoking” which allows our experts to subtly enhance or intensify their beautiful tones by awakening the natural tannins in the timber. Offering more complexity than a simple stained board, these smoked colours add a new dimension to your floor.

Signature

LAYER UPON LAYER

—
All Berkeley oak floors are treated with 5 layers of natural oil, cured and hardened with ultraviolet lamps for a resilient yet beautifully subtle finish. Berkeley Classic Walnut is cured with a beautiful lacquer to give it a soft silky sheen.

SANDRINGHAM | ROYAL OAK

INTRODUCING OUR LUXURIOUS NEW RANGE OF DESIGN PANELS.

Painstakingly hand-crafted to order, these panels represent the finest in wooden flooring. Each one is created by inlaying selected blocks to create patterns both traditional and contemporary, intricate and minimalist. This technique means the natural grain runs in multiple directions, allowing light and texture to add depth and interest to the floor.

Tracing their origins as far back as the opulent palaces of 17th Century France, this classic design statement adds elegance and style to both contemporary and traditional design schemes.

Woodpecker is proud to offer you a comprehensive range of exquisite panels – 4 patterns, 3 finishes and a choice of bevels.

Featuring bevels only at the panel perimeters, this intricate pattern is nonetheless sleek and elegant, creating an impact with the interplay of different grain direction.

SUSTAINABLE AND DURABLE

BAMBOO FLOORING

For an eco-friendly floor that's naturally sleek and hardwearing

Bamboo is one of the most sustainable materials on earth. Actually a fast-growing grass, cutting encourages regrowth and it fully replenishes in only 5 years.

Bamboo forms its own unique grain patterns and can be formed into extremely hardwearing boards with the natural look and qualities of hardwood.

To produce these exceptionally hard boards, our Woodpecker experts use a process called strand weaving, binding bamboo fibres together and compressing them to create boards with a higher tensile strength than steel.

The mark of
responsible forestry

All of our wood floors
are responsibly sourced
with FSC® certification.

PEACE OF MIND FOR
GENERATIONS TO COME

THE RESPONSIBLE CHOICE

With the option of natural or coffee, plank or parquet, and finished with 5 coats of UV cured scratch resistant lacquer, our bamboo floors are the sustainable solution for your beautiful home.

NEXT GENERATION BOARDS

STRATEX® FLOORING

For high stability and
outstanding performance

Incredibly strong and stable, water resistant and with built in underlay – there's no better board for modern life.

Engineered from layers of the highest performance materials, with a mineral composite core and built in underlay, choose Woodpecker Stratex® technology for even the most challenging rooms in the house.

More durable and solid underfoot than laminate, stable, resilient and dent resistant, Stratex® floors are the ultimate solution for the modern home.

Offering both waterproof embossed vinyl and highly moisture resistant real wood options, there's no better floor to withstand the rigours of daily life.

Our Stratex® floors come
with a 25 Year Warranty.

A PERFECT FIT

With glueless Easiloc joints and a built-in-underlay, Stratex® flooring is easy to fit and can be installed directly onto most existing subfloors.

BRECON

Waterproof, Stable Mineral Composite Core & Built-in Underlay

MADE FOR LIVING

Our Brecon Stratex® flooring range offers incredibly strong and stable boards with an extremely durable, embossed woodgrain-effect vinyl upper layer and built-in underlay. Brecon doesn't need expansion when it's installed in normal living conditions, where temperatures remain between 15°C and 25°C. Offering a wide range of highly realistic wood finishes, Brecon is a stylish and practical solution for even the most demanding rooms in the house.

TACTILE TEXTURES

Subtle embossing of natural grain patterns and flows brings Brecon boards to life and adds realism and vitality to your floor.

01-SPR-001 - Wall Clips	30 Clips	£60

STAIRPRO

Available for Harlech, Berkeley and Chepstow floors, this nifty solution is a neater alternative to stair nosing, and gives a modern, clean finish.

LENGTH	RRP (INC. VAT)
900mm	£94
1800mm	£165

ACCESSORIES

FAITHFUL TOOLS & FINISHING TOUCHES

Our experts have developed a huge range of supporting accessories to ensure the fit of your floor is nothing less than perfect.

FOR A SMOOTH AND
NATURAL TRANSITION

TRIMS

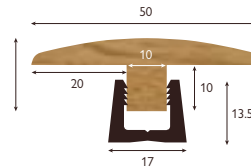

TRIM STYLE OPTIONS

TWIN TRIM

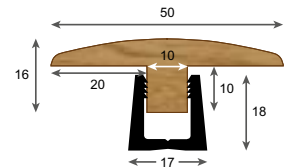

Also called a 'T-bar' or 'expansion', the twin profile is used to cover the expansion gap between two floors of equal height, providing a neat finish at a doorway, or serving as a room divider.

15 - 18mm

18 - 22mm

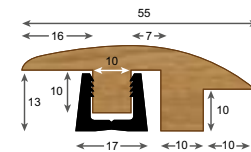

SEMI RAMP TRIM

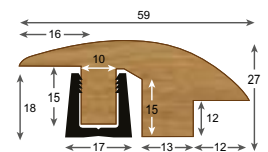

Where two surfaces meet but the difference in height is slight, a semi-ramp profile is the solution. They are ideal where your wood floor transitions to carpet.

15 - 18mm

18 - 22mm

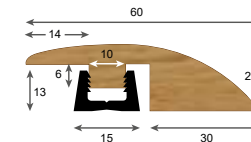

RAMP TRIM

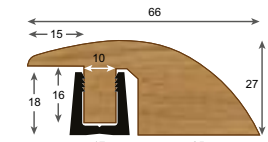

Where one surface meets another at uneven heights, a ramp profile is used. Typically, they bridge the gap between vinyl and wood flooring. They are also called 'reducers' or 'adapters'.

15 - 18mm

18 - 22mm

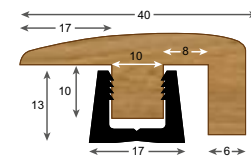

END TRIM

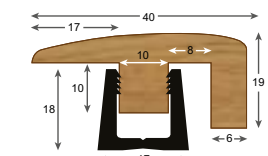

This profile is commonly used for inset mat wells, as well as where wood flooring meets a patio door. They're also called 'edge', 'square edge' or 'end stop' profiles.

15 - 18mm

18 - 22mm

SUITABLE FOR: SALCOMBE, HARLECH, GOODRICH, BERKELEY AND DESIGN PANELS

OVERLAP STAIR NOSING TRIM

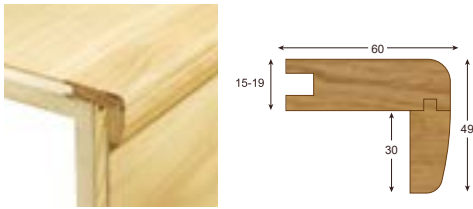

Protect the edges of the flooring on your staircase with a stair nosing trim. This trim will stop excessive wear and tear and looks smart. It comes in colours to complement our flooring.

LENGTH	NATURAL OAK OR UNFINISHED RRP (INC VAT)	STAINED RRP (INC VAT)	WALNUT RRP (INC VAT)
1m	£47	£55	£72
2.7m	£121	£143	£193

TONGUE & GROOVE STAIR NOSING

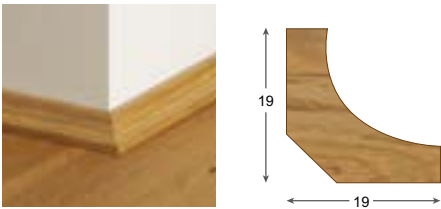

Available in colours to complement our wood flooring, this tongue and groove stair nosing trim will provide a neat finish on your staircase. Please note tongue & groove stair nosing isn't suitable for Salcombe or Goodrich floors.

1m	£47	£55	£72
2.7m	£121	£143	£193

SCOTIA TRIM

It's not always possible to remove and refit skirting boards when you fit a wood floor, so this inwardly curved trim can be used to hide the expansion gap between skirting and the flooring.

LENGTH	NATURAL OAK OR UNFINISHED RRP (INC VAT)	STAINED RRP (INC VAT)	WALNUT RRP (INC VAT)
2.7m	£26	£29	£44

COLOUR MATCHING

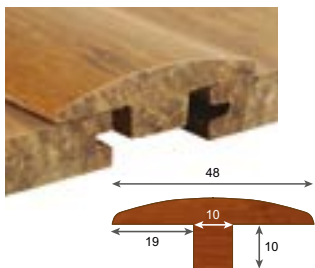

In addition to our natural oak floors, all our stained wood floors have a trim colour to complement, allowing an elegant transition between different floor surfaces.

We have very careful selection processes in place to ensure that all our wood trims fully complement our flooring range. However, do be aware that like the flooring, trims are subject to natural colour variation and may not appear to match the flooring exactly.

SKIRTING BOARDS AND PIPE COVERS TO SUIT YOUR FLOORING

FINISHING TOUCHES

SKIRTING BOARDS

Create a smooth transition from floor to wall, and hide expansion gaps, with attractive Woodpecker skirting boards.

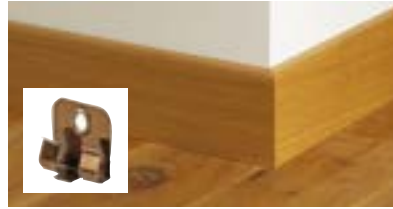

SOLID OAK

Made from rustic grade timber, and available either lacquered or unfinished, our solid oak skirting looks fantastic. This skirting is double sided and interchangeable so gives you the option of having Torus (beading along the top) or Ogee (with a groove and a head).

Finished size: 20 x 145 x 2350mm

CODE	RRP (INC. VAT)
69-SKU-145 - Unfinished	£62
69-SKO-145 - Lacquered	£77

OAK VENEER

With a modern pencil round profile, Woodpecker real oak veneered skirting will give the room a classy finish and has a rear rebate to hide wiring. Skirting clips are available for a glueless installation.

Finished size: 16 x 95 x 2500mm

CODE	RRP (INC. VAT)
11-VOS-095 - Skirting	£48
11-SKC-050 - Skirting Clips (Pack of 50)	£28

COLOURSEALANT MASTIC

310ml gunnable cartridge for wood and Stratex® floors, used to perfect the finishing touches.

CODE	COLOUR	RRP (INC. VAT)
06-WCS-001	Colour Sealant Oak	£7
06-WCS-002	Colour Sealant Pine	£7
06-WCS-003	Colour Sealant Walnut	£7
06-WCS-004	Colour Sealant Light Grey	£7

PIPE COVERS

Conceal that unsightly hole around the radiator pipe with an easy-to-fit cover, colour-matched to your natural wood flooring.

SOLID

Our hardwood pipe covers come in two halves with a unique jigsaw design so that they clip together creating a seamless join with an inside diameter of 15mm. These are available to complement all floors in our catalogue.

COLOUR	PER PACK	RRP (INC. VAT)
Oak or Unfinished	2	£11
Stained or Walnut	2	£15

PLASTIC

Because plastic is so malleable, these matt pipe covers slide easily around the radiator pipe then snap closed to cover the gap between floor and pipe. Two colours are available, they have an inside diameter of 15mm, and they are sold in packs of four.

CODE	COLOUR	PER PACK	RRP (INC. VAT)
06-PPO-150	Oak	4	£5
06-PPW-150	White	4	£5

CUSHION & PROTECT YOUR FLOOR

UNDERLAY & BARRIERS

FLOORMATE

Floormate provides excellent moisture protection, and is ideal for areas of heavy foot traffic. Made from recycled rubber, this is a great environmentally friendly option which is also suitable for use over underfloor heating. Floormate incorporates a foil vapour barrier and combines comfort, support and good sound and thermal insulation.

Eco-friendly -
Made from
recycled
rubber

CODE	DEPTH	PER ROLL	RRP (INC. VAT)
49-FME-010	3.5mm	10m ²	£63
49-FME-015	3.5mm	15m ²	£94

BASIC 20

Where you have a level and moisture-free subfloor, Basic 20 underlay is the optimum choice. It's inexpensive, offers good comfort and support, and has reasonable soundproofing and thermal qualities too. It's particularly useful for upper floors where moisture isn't an issue. Tog rating: 0.72.

CODE	DEPTH	PER ROLL	RRP (INC. VAT)
49-GBO-015	3mm	15m ²	£27

AQUASTOP DAMP PROOF MEMBRANE

Designed especially for ground level subfloors where moisture could be present, Aquastop has the same qualities as Basic 20 underlay, plus a laminated damp proof membrane (DPM), which is 80mm wider than the underlay padding to ensure ultimate moisture protection when installed. Popular, inexpensive and with a tog rating of 0.67.

CODE	DEPTH	PER ROLL	RRP (INC. VAT)
49-GBP-015	3mm	15m ²	£34

SOLITEC

This specialist underlay has a strong adhesive top layer for the floor to bond to, making it ideal for floating solid wood or engineered boards. You don't need tape, glue or nails. It must be used in conjunction with a damp proof membrane to protect against moisture migration. We only recommend installing over underfloor heating with engineered wood flooring.

CODE	DEPTH	PER ROLL	RRP (INC. VAT)
49-ST5-003	3mm	10m ²	£95

ACOUSTAMAT

If you are concerned about noise pollution, install an Acoustamat slatted underlay in conjunction with WP50 Sausages to form a liquid batten system. The perforations are ideal for applying the adhesive and once installed it provides a reliable acoustic barrier. It's also great for uneven subfloors.

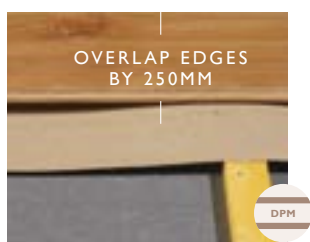

Use with
WP50 Adhesive
Sausages.

See page 138

CODE	DEPTH	PER ROLL	RRP (INC. VAT)
49-SSK-001	3mm	16.5m ²	£95

MOISTOP BARRIER PAPER

This moisture resistant barrier paper is perfect if you're using secret nails to secure a wooden floor over a timber-based subfloor. Its bitumen backing self-seals around the nail holes to maintain a watertight barrier and prevent your flooring absorbing moisture from below.

CODE	PER ROLL	RRP (INC. VAT)
53-MBP-001	25m ²	£70

DAMP PROOF MEMBRANE (DPM)

Designed to be used in conjunction with a cushioning underlay, and to prevent moisture damaging your floor, this membrane is durable and strong with high puncture resistance. It's made from 1000-gauge high quality polythene.

CODE	DEPTH	PER ROLL	RRP (INC. VAT)
37-DPM-100 (4m x 25m)	1000 gauge	100m ²	£95

XL UNDERLAY

If your subfloor suffers from some minor dips (up to 3mm) XL Underlay can help solve the problem. It's made from lightweight extruded polystyrene and comes in packs of 10 tiles that are 500mm wide by 1200mm long. It offers exceptional sound and thermal insulation, and when taped together forms an effective moisture barrier. Tog rating: 1.7.

CODE	DEPTH	PER ROLL	RRP (INC. VAT)
49-WXL-001	6	6m ²	£24

VAPOUR TAPE

Use this self-adhesive foil tape when laying a Woodpecker moisture barrier, or products like our XL Underlay tiles. It not only blocks out moisture but is an easy way to strengthen joins.

CODE	SIZE	RRP (INC. VAT)
10-VPT-097	75mm x 25m	£6.50

PROTECTALAY

Save clean-up time, control dust, dirt and debris during renovations with our temporary floor protection. The material provides a strong, moisture-resistant yet breathable shield which can be used to safeguard wood flooring during and after installation.

CODE	SIZE	RRP (INC. VAT)
49-PRL-001	1 x 30m = 30m ² /roll	£84

FOR THE BEST SUBFLOOR PREPARATION

ADHESIVES & SEALANTS

MS PARQUET ADHESIVE

Made specifically for use with Woodpecker floors, MS Parquet is recognised for its quality. In just 30 minutes, it will secure wood boards.

CODE	SIZE	COVERS (APPROX)	RRP (INC. VAT)
31-SMS-100	15kg	12-15m ²	£170

WP50 SAUSAGES

Applied using a bulk gun, this purpose-made adhesive is designed for use with Woodpecker's Acoustamat underlay to form a liquid batten system.

CODE	PRODUCT	SIZE	COVERS (APPROX)	RRP (INC. VAT)
23-LBS-001	Sausage	600ml	2m ²	£13

USEFUL CLEANING
AND MAINTENANCE TIPS

HARLECH | SMOKED OAK

**1 DOOR MATS**

A good quality floor mat will catch dirt and grit, preventing damage further into your home. Grit underfoot is like sandpaper, scratching the floor's finish, so consider fitting Woodpecker Coir Matting which provides a barrier to wet and dirty feet.

**2 RUGS OR CARPET RUNNERS**

We know that the last thing you want to do is cover up the beautiful texture of your natural wood floor, but sometimes prevention is better than the cure. Consider rugs or carpet runners for high footfall areas such as doorways, halls and stairs.

**3 BE CAREFUL WITH FURNITURE**

Never drag furniture or other objects across your wood floor – it can easily result in unsightly dents or scratches. Woodpecker offers a variety of felt protectors and castor cups that enable you to move furniture easily without marking your floor.

**4 SHOE RULES**

Avoid wearing heavy shoes or work boots when stepping onto your natural wood floor. High heels, and stilettos in particular, should be avoided. They exert a huge amount of pressure that easily dents or marks even the toughest of wood floors.

**5 CLEAN UP SPILLS**

Liquid is the enemy, so mop up any spilled drinks and never allow water or other liquids to sit for any length of time. The odd drop may not hurt, but excessive amounts of water will cause lasting damage.

**6 PET PATROL**

Nothing's more natural than a dog or cat curled up by the fire, asleep on your wood floor. But remember to keep your pet's claws trimmed to prevent scratches and, as with point five, if there are any 'accidents' make sure they're cleaned up fast.

**7 SUNSHINE**

Sunlight will naturally help the wood's colour to mellow, so move rugs, mats and furniture regularly to ensure an even maturing of colour. Excessive exposure to direct sunlight can lead to expansion/shrinkage, warping and splitting. Consider shading your floor from large windows that face the sun.

**8 LIGHT CLEANING**

Regular sweeping with a soft bristled broom will get rid of dust and rogue bits of grit on the floor. You can also vacuum a natural wood floor – ideally with a soft brush attachment to minimise scratching.

**9 MOPPING**

Always use a well-wrung mop when cleaning and remove excess liquid immediately. Woodpecker supplies specially formulated Cleaning Kits that include a gentle Spray Mop, Cleaning Liquid and Care Guide for both lacquered and oiled finishes.

MAINTAINING A BEAUTIFUL FLOOR LONG TERM CARE

Even though the most advanced wood treatments and finishes are used to create our floors, they will need to be looked after to stay in tip-top condition. This involves cleaning and sometimes re-finishing your flooring at suitable intervals to ensure it continues to delight throughout its lifetime.

CLEANING OILED FLOORS

For a deeper clean now and again, use Woodpecker One Coat Soap. This clever product will clean your floor and form a protective film, helping to build its surface resistance over time and making your floor even easier to maintain.

RESTORATION TREATMENTS FOR WOOD FLOORING

How often you recoat or repair your floor will depend on several factors including the type of floor it is, its finish and the wear it's experienced. As a basic preventative measure, you might consider recoating your floor every two or three years. Don't wait until your floor looks worn. If you allow the protective coat to wear away, it becomes susceptible to dirt and water penetration and harder to clean and repair.

A QUICK TEST

A good way to check whether your floor needs treatment is to pour a few drops of water onto its surface. If the finish is in good order, the water will bead on the floor and can easily be wiped away. No maintenance is needed. If the water slowly soaks into the timber, leaving behind a light saturation mark, the finish is starting to wear thin. A new coat of lacquer or oil should be applied. However, if the water is immediately absorbed and leaves a dark stain, the finish has been completely worn away and the floor may need sanding and recoating.

NB: Before any treatment is carried out, we recommend testing in an inconspicuous area of the floor to check compatibility.

BRECON FLOOR REPAIRS

The best way to conceal small scratches and marks on our Brecon range is with Scratchfix – a quick and easy method to restore scratches on resilient floors.

RE-LACQUERING & REPAIRS

If your lacquered floor gets any isolated scratches or dents, these can be sealed using Woodpecker Scratch Cover according to the instructions supplied.

Deeper scratches or gouges might call for professional wood filler, available in a variety of colours from most hardware and flooring retailers. Afterwards, apply some Woodpecker Scratch Cover to give the repair a protective finish.

Extra care is needed when sanding stained floors to ensure that the process doesn't break through the complete layer of stain. In this instance, the floor would require a patch-repair before the lacquer is applied.

If the floor is badly worn in some places, it may be necessary to sand the flooring back to its unfinished surface before recoating all over. Unlike oil, lacquer doesn't penetrate the wood's surface, instead it sticks to it so the entire floor must be covered to avoid ridges and overlap marks. A single coat of lacquer will be enough to protect against moisture, though several coats should be applied if the floor faces lots of foot traffic.

RE-OILING & REPAIRS

Unlike lacquered floors, isolated areas of an oiled floor can be treated without having to re-oil the entire floor. Oiled surfaces aren't as tough as lacquered surfaces and need to be maintained more often, by applying Woodpecker One Coat Oil.

CLEANING & CARE PRODUCTS

PROTECTION

COIR MATTING

Coir matting is a great way of protecting your natural wood floor.

CODE	WIDTH	RRP (INC. VAT)
42-COI-010	1000mm	£44

CASTOR CUPS

Protect your floor from the dents, pressure marks and scratches that could be caused by heavy furniture.

CODE	DESCRIPTION	SIZE	RRP (INC. VAT)
05-FCC-363	Castor Cups x 4 Light Wood Grain	44mm	£8.50
05-FCC-364	Castor Cups x 4 Light Wood Grain	60mm	£8.50

FELT PADS

Place underneath all types of furniture including dining chairs and table legs to protect from scratches.

CODE	DESCRIPTION	SIZE	RRP (INC. VAT)
05-FFP-951	Heavy Duty Felt Pads x20 (Round)	19mm	£5
05-FFP-952	Heavy Duty Felt Pads x16 (Round)	25mm	£5
05-FFP-953	Heavy Duty Felt Pads x8 (Round)	38mm	£5
05-FFP-947	Heavy Duty Felt Pads (Various Sizes)	Mixed	£8.50
05-FFP-950	Heavy Duty Felt Pads x2 (Rectangular)	113x 153mm	£8.50

EXPERT KNOWLEDGE

Over time, felt pads collect grit and so to prevent any unnecessary scratches on your floor, remember to renew your felt pads every so often.

A Woodpecker floor is beautiful when installed with consideration and care. The next few pages will help you with some useful tips.

If you need any further help, our Expert Team are happy to talk through any queries with you. Get in touch on 02920 888 223 or info@woodpeckerflooring.co.uk

INSTALLATION

PREPARATION

BEFORE DELIVERY

Ensure concreting, plastering and decorating are complete, the building is thoroughly dried out and windows and doors are fitted and watertight.

PREPARING THE SUBFLOOR

The subfloor must be in good structural condition, free from damp rot, fungal or insect infestation and contaminating residues. It must be flat, with bumps and dips not exceeding 3mm over a 2m area, vacuumed and free of debris. Hot pipes should be well insulated to prevent localised hotspots, which can cause warping or shrinkage.

LEVELLING THE FLOOR

If the subfloor needs to be levelled, apply our Level-X™ Primer followed by Level-X™ Self-Levelling Compound, which is fibre reinforced. Never use latex self-levelling compounds.

DAMP PROOFING

Moisture readings shouldn't exceed 70% RH for cement-based concrete (shouldn't exceed 65% RH when there's underfloor heating) and 11% WME for wooden subfloors or joists. If in doubt, always use a Woodpecker moisture barrier.

NB: The subfloor should be prepared for installation in accordance with the industry standards outlined in BS-8201-201

HEATING AND AIR CONDITIONING

Room temperature and humidity levels need to be stable before flooring is delivered. Heating/air conditioning should be on for at least two weeks before the floor is laid. Underfloor heating must be thoroughly tested, and turned off 48 hours before fitting.

ATMOSPHERIC CONDITIONS

Room temperature shouldn't be lower than 18°C (64°F), or floor temperature lower than 15°C (59°F). The Atmospheric Relative Humidity should be between 40 and 60%.

ACCLIMATISATION

The sealed, unopened boxes should be laid flat, in the centre of the room for 24 hours (Stratex®), 3-4 days (engineered/bamboo) or 5-7 days (solid), in typical living conditions. DO NOT store it outdoors, in an outbuilding, or anywhere with damp/condensation problems.

INSPECTION

Check each plank before installation. If there are any problems, get in touch with us so that we can rectify them. We can't consider any defects after the floor has been installed.

VISIT OUR WEBSITE FOR
FULL PREPARATION AND
INSTALLATION DETAILS:
[woodpeckerflooring.co.uk/
installation-instructions](http://woodpeckerflooring.co.uk/installation-instructions)

LAYING THE FLOOR

We recommend that our flooring is installed by an experienced fitter. If the flooring is laid over an existing boarded floor, it should be positioned at right angles to the previous planks. Otherwise we recommend laying planks in the same direction as the light entering the room, mixing lighter and darker shades. Fit according to installation instructions.

Disclaimer: Installation guidance is advisory and is based on established good practice and the BS-8201-2011 standard. It is the fitter's responsibility to follow these procedures before, during and after installation. Woodpecker cannot accept responsibility for any issues relating to installation.

EXPERT TIP

SUBFLOOR

A rule of thumb for the drying time of a sand and cement-based screed is one day per millimetre for the first 50mm, and 2.5 days for each millimetre thereafter. So, a 50mm screed should take about two months to dry out, and a 100mm screed will take six months. Plaster takes up to six weeks to dry completely.

ATMOSPHERIC CONDITIONS

The room temperature shouldn't be lower than 18°C (64°F), or the floor temperature lower than 15°C (59°F). The Atmospheric Relative Humidity should be between 40 and 60%. Note that wood floors are not suitable for wet rooms, or in areas where there is a regular flow of water.

MOISTURE TESTING

Moisture is the enemy of natural wood, and can damage your beautiful flooring. Even when your subfloor looks dry, it may contain excess moisture in the substrate. Using a professional moisture meter such as the Protimeter MMS will tell you whether or not it's safe to go ahead with installation. Readings shouldn't exceed:

- 70% Relative Humidity (RH)
for cement-based concrete
- 11% Wood Moisture Equivalent (WME)
for wooden subfloors or joists

INSTALLATION

FIXING

FULLY STUCK DOWN

Tongue and groove planks can be fixed directly to a concrete subfloor using Woodpecker MS Parquet Adhesive. Never glue the tongue and grooves together if you choose to fully stick down a wood floor as the boards could crack.

FLOATING

Floating a floor means the boards are laid loose over the subfloor if they're a clic system, and when floating a tongue & groove, the joints must be glued. A floating floor can be installed on concrete, anhydrite, existing wood floor, ceramic tiles, PVC and linoleum – but not carpet.

LOC SYSTEM

If possible, it's easiest to 'loc' the boards in complete rows rather than individually. When connecting the header joints, insert the board into the lip at an angle of 30° and at the same time move the board closer and lower into position. It should 'loc' into place. If it won't go, don't force it. Check the board for dirt, excess lacquer or any other obstruction, remove that, and try again.

FLOATING TONGUE AND GROOVE

When laying a floating floor, you should glue tongue and groove boards together for stability, and to stop squeaking. Run adhesive along the groove of the long side and header joint of a plank. Slide it towards the long edge of the facing tongue with the header joint connected, then tighten with a tapping block or pulling iron.

NAILING

A tongue and groove wood floor can be secret nailed to an existing timber subfloor or, as long as the flooring is 18mm or thicker, fixed directly to joists as a structural floor.

The subfloor must be of a suitable width and thickness to hold 50mm cleats fired into it at a 45° angle. Joists should be kiln dried to avoid cupping or expansion and must be spaced in accordance with building regulations. When secret nailing to the subfloor or joists, always use Woodpecker Moistop Barrier Paper, for additional moisture protection. Flooring should be fitted at 45° or 90° to the subfloor and nailed over every joist.

Never use adhesive to glue between boards if it's being nailed down. The glue will inhibit the natural flexibility of the flooring and could cause cracks.

EXPERT TIPS

DON'T OVERGLUE

Never glue the tongue and grooves together if you choose to fully stick down a wood floor. Too much pressure will be placed on the boards and they could crack.

IT'S NAILS OR GLUE, NOT BOTH

Never use adhesive to glue between boards if it's being nailed down. The glue will inhibit the natural flexibility of the flooring and could cause cracks.

Tongue and groove planks can be fixed directly to a concrete subfloor using Woodpecker MS Parquet Adhesive.

Floating a floor just means the boards are laid loose over the subfloor if they're a clic system, when floating a tongue & groove, the joints must be glued.

Tongue and groove planks can be secret nailed to a suitable existing timber subfloor.

INSTALLATION

QUICK
FITTING TIPS

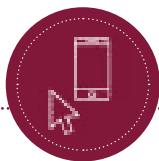

To allow for expansion gaps, spacers should be used at regular intervals when fitting and then removed before skirting boards, beading or trims are put in place.

EXPANSION GAPS

As wood is a natural substance, it will expand and contract with changes in the temperature and humidity. Therefore, expansion gaps need to be left to allow the floor to move.

To determine how much space needs to be left:

- Expansion gaps for wooden and bamboo flooring should be 10-15mm regardless for floors measuring up to 8m in width. Thereafter, an extra 2mm per metre should be added for every extra meter.
- Stratex floors need 2-3mm expansion where there is likely to be moderate temperature variation beyond normal living conditions (temperatures between 15°C and 25°C). Extremes of heat may require even more expansion, and shielding from direct sunlight may be needed.
- Skirting boards and perimeter trims should be fixed to the wall and shouldn't obstruct the movement of the floor in any way.
- Please see pages 140-145 for our full range of trims that can be used to conceal your expansion gaps.

CALL OUR TEAM OF EXPERTS

If you need any further help, our Expert Team are happy to chat through any queries you have. You can reach us on 02920 888 223 or email us at info@woodpeckerflooring.co.uk.

UNDERFLOOR
HEATING

BEFORE INSTALLATION

- Turn off the underfloor heating for at least 48 hours prior to fitting the floor.
- Use expansion trims to allow for differential movement between heating zones, or unheated areas.

EXPERT TIPS

TEMPERATURE CONTROL

Ensure the system is calibrated so that the temperature to the underside of the wood floor never reaches more than 27°C, even if the thermostat setting is increased.

AFTERCARE

- Once fitted, the floor should be left to acclimatise for 2-3 days before the underfloor heating is turned on.
- When the heating is switched on it should be set at 1°C above the ambient temperature of the room and then raised by a further 1°C per day until the desired temperature is reached. Do not turn it on full straight away, this can cause the wood to shrink, expand or even crack.
- Gradual temperature changes should be continued, with 1°C changes per day to accommodate the changing seasons. Leave the heating permanently on at a slightly lower temperature setting when it is not required.

EXPERT TIPS

SLOW AND STEADY

When the heating is switched on it should be set at 1°C above the ambient temperature and then raised by a further 1°C per day until the desired temperature is reached. Do not turn it on full straight away. Raising and lowering the temperature too quickly can cause the wood to shrink, expand or even crack.

WOODPECKER FLOORING - TERMS & CONDITIONS OF SALE

In the unlikely event that goods are delivered wrong or damaged, it is the responsibility of the customer to ensure sufficient time is allowed for a replacement to be sent.

1. DEFINITIONS

In these terms and conditions, the following words shall have the following meanings:

"Buyer" shall mean any person, firm or company, to whom the Company supplies Goods or Services or with whom the Company enters into negotiations for the supply of Goods or Services.
"Company" shall mean Woodpecker Trading Co Ltd.
"Goods" shall mean products, articles or things which are supplied by or which are the subject of negotiations for supply by the Company to the Buyer.
"Services" shall mean services are supplied by or which are the subject of negotiations for supply by the Company to the Buyer.

2. MAKING THE CONTRACT

2.1 The Company's salesmen are not authorised representatives and are not authorised to accept confirm or vary any order nor to make any representation or promise on the Company's behalf.
2.2 Any estimate/quotation which comprises an invitation to treat is open for a period of 30 days only from the date thereof, provided that the Company has not previously withdrawn it. Any order issued by the Buyer is subject to acceptance by the Company and a contract will only be formed when the Company has accepted the Buyer's offer to buy in writing. Any offer made by the Buyer must be confirmed in writing by the Buyer.
2.3 All orders are placed under these terms and conditions alone.
2.4 These terms and conditions exclude any other terms and conditions inconsistent therewith which a Buyer might seek to impose even though such other terms and conditions may be submitted in a later document and/or purport to exclude or supersede any terms or conditions with them or may be contained in any offer acceptance or counter-offer made by the Buyer.
2.5 All floors supplied by the Company must be fitted in accordance with BS8201 (2011).
2.6 No variation of these terms and conditions is permitted unless expressly accepted by a Director of the company in writing.

3. CANCELLATION

3.1 No cancellation by the Buyer is permitted except where expressly agreed by a Director of the Company in writing.
3.2 The Buyer will in the event of agreed cancellation by the Buyer indemnify the Company fully against all expenses incurred up to the time of such cancellation together with by way of liquidated damages a sum of 33 1/3% of the contract price which shall be paid by the Buyer to the Company forthwith.

4. PRICE

4.1 All prices quoted are those ruling at the date of dispatch or supply.
4.2 Unless otherwise stated all prices quoted are net, exclusive of VAT, and in the case of Goods ex works.
4.3 The Company reserves the right at any time prior to delivery of the Goods or supply of Services to adjust the price to take account of any increase in the cost of raw materials, labour or services or any currency fluctuations affecting the cost of imported materials or services.

5. TERMS OF PAYMENT

5.1 All sums become due and payable under these terms and conditions not later than 20th of the month following date of invoice.
5.2 Time for payment shall be of the essence.
5.3 The Company reserves the right to charge interest at 2.5 per centum per month on all overdue accounts, such interest being deemed to accrue on a day to day basis from the due date for payment under clause 5.1.
5.4 If the Buyer (being a Company) has a petition for its winding-up or passes a resolution for voluntary winding-up otherwise than for the purpose of a bona fide amalgamation or reconstruction or compounds with its creditors or has a receiver appointed or all or any part of its assets or (being an individual) becomes bankrupt or insolvent or enters into any arrangement with its creditors or commits a material or serious breach of this Agreement (and in the case of such a breach being remediable fails to remedy it within 7 days of receiving notice to do so) he will be deemed to have repudiated the Contract.
5.5 The Company reserves the right at any time at its discretion to demand security for payment before continuing with or delivering any Order, supplying any Goods or Services.
5.6 The Buyer accepts that in the event of non-payment within the payment period the Company will resort to legal action to recover the debt in this instance a 20% surcharge will be added to the outstanding amount to cover administration and agents fees.
5.7 Where the Buyer is a company the directors agree to guarantee payment personally, both jointly and severally, of any outstanding amounts due in the event of their company being unable to meet its financial commitments or becoming insolvent.

6. DELIVERY

6.1 Delivery will be deemed to have been effected when the Goods are ready for collection at the premises of the Company or as the case may be the premises of the suppliers to the Company in circumstances where the Goods are delivered direct from such suppliers.
6.2 Time of delivery is not of the essence.
6.3 The Company shall not be liable for any loss whatsoever or howsoever arising caused by its non-delivery or by the failure to make Goods ready for collection on the due date.
6.4 The Company reserves the right to make delivery by instalments and to tender a separate invoice in respect of each instalment.
6.5 When delivery is to be by instalments or the Company exercises its right to deliver by instalments under clause 6.4 hereof or if there be delay in the delivery of any one or more instalments

for whatever reason this will not entitle the Buyer to treat the contract as repudiated and/or to damages.
6.6 Deviations in quantity between the Goods delivered and Goods ordered representing not more than 10 per cent by value shall not give the Buyer any right to reject the Goods or to claim damages and the Buyer shall be obliged to accept and pay at the contract rate for the quantity of the Goods delivered.

7. SUPPLY OF SERVICES

7.1 Time for the supply of Services is not of the essence.
7.2 The Company shall not be liable for any loss whatsoever or howsoever arising caused by its failure to supply Services or any part thereof on the due date.
7.3 The Company reserves the right to supply Services by instalments and to tender a separate invoice in respect of each instalment.
7.4 When the supply of Services is to be by instalments or the firm exercises its right to supply Services by instalments under clause 7.3 hereof or if there be a delay in the supply of any one or more instalments of Services for whatever reason this will not entitle the Buyer to treat the contract as repudiated or to damages.
7.5 Deviation in the quantity between Services supplied and the Services ordered representing not more than 10 per cent by value shall not give the Buyer any right to reject the Services or to claim damages and the Buyer shall be obliged to accept and pay at the contract rate for the quantity of the Services supplied.

8. RISK AND THE PASSING OF PROPERTY IN GOODS

8.1 Risk in the Goods shall pass to the Buyer when the Goods are delivered.
8.2 Notwithstanding risk in the Goods passing in accordance with clause 8.1 hereof title in the Goods shall not pass to the Buyer until whichever shall be the first to occur of the following:-
8.2.1 Payment being received by the Company for the Goods and Services and no other amounts then being outstanding from the Buyer to the Company in respect of other Goods or Services supplied by the Company.
8.2.2 The Buyer selling the Goods in accordance with the provisions of these terms and conditions in which case title to the Goods shall be deemed to have passed to the Buyer immediately prior to delivery of the Goods to the Buyer's customers; and
8.2.3 The Company waiving its rights under this clause 8.2 in respect of specified Goods or Services whereupon title to the said Goods shall forthwith vest in the Buyer.
8.3 The Buyer is licensed by the Company to use or to agree to sell the Goods delivered to the Buyer subject to the express condition that the entire proceeds of any sale are held in trust for the Company and are not mixed with other moneys or paid into an overdraw bank account and shall at all times be identifiable as the Company's moneys.
8.4 Until title to the Goods passes:
8.4.1 The Buyer will hold the Goods as fiduciary agent and Bailee for the Company;
8.4.2 the Goods shall, subject to clause 8.3, be kept separate and distinct from all other property of the Buyer and of third parties and in good and substantial repair and condition and be stored in such a way as to be clearly identifiable as belonging to the Company;
8.4.3 the Company may at any time revoke the power of sale and use contained in clause 8.3 by notice to the Buyer if the Buyer is in default beyond the 20th of the month following invoice in the payment of any sum whatsoever due to the Company (whether in respect of the Goods or any other Goods or Services supplied at any time by it to the Buyer) or if the Company has bona fide doubts as to the solvency of the Buyer;
8.4.4 The Buyer's power of sale and use contained in clause 8.3 shall automatically cease if the Buyer has a petition presented for its winding-up or passes a resolution for voluntary winding-up otherwise than for the purpose of a bona fide amalgamation or reconstruction or compounds with its creditors or has a receiver appointed of all or any part of its assets or becomes bankrupt or insolvent or enters into any arrangements with creditors or takes or suffers any similar action in consequence of debts or carries out or undergoes any analogous act or proceeding under foreign law;
8.4.5 upon determination of the Buyer's power of sale and use pursuant to clause 8.4.3 or clause 8.4.4. The Buyer shall place any of the Goods in its possession or under its control and unsold at the disposal of the Company and the Company shall be entitled to enter upon any premises of the Buyer for the purpose of removing such Goods.
8.5 The Company shall at any time be entitled to appropriate any payments made by the Buyer in respect of any Goods or Services in settlement of such invoices or accounts in respect of such Goods or Services as the Company may in its absolute discretion think fit notwithstanding any purported appropriation to the contrary by the Buyer.

9. LIEN AND STOPPAGE

9.1 Until such time as the title in the Goods has passed to the Buyer the Company has the right to withhold delivery if the Buyer (being a Company) has a petition presented for its winding-up or passes a resolution for voluntary winding-up otherwise than for the purpose of a bona fide amalgamation or reconstruction or compounds with its creditors or has a receiver appointed of all or any part of its assets or (being an individual) becomes bankrupt or insolvent or enters into any arrangements with creditors or takes or suffers any similar action in consequence of debts or carries out or undergoes any analogous act or proceedings under foreign law.
9.2 When the title in the Goods has passed to the Buyer and the time for payment has fallen due but payment has not been made or if the Buyer (being a Company) has a petition presented for its

winding-up or passes a resolution for voluntary winding-up otherwise than for the purposes of a bona fide amalgamation or reconstruction or compounds with its creditors or has a receiver appointed of all or any part of its assets or (being an individual) becomes bankrupt or insolvent or enters into any arrangements with creditors or takes or suffers any similar action in consequence of debts or carries out or undergoes any analogous act or proceedings under foreign law the Company has
9.2.1 A lien on the Goods as long as the Company is in possession of them
9.2.2 A right of stoppage in transit
9.2.3 A right of resale
9.3 For the avoidance of doubt it is hereby declared that nothing in this clause shall affect the rights given to the Company by ss.38-48 of the Sale of Goods Act 1979.

10. INSPECTION/SHORTAGES

10.1 The Buyer is under a duty to inspect the Goods forthwith on delivery and satisfy himself as to the due performance of Services forthwith after supply.
10.2 The Company shall be under no liability for any defects or shortages that would be apparent on careful inspection if the terms of this clause are not complied with, and, in any event will be under no liability if a written complaint is not delivered to the Company within 7 days of delivery or supply detailing the alleged defect or shortage.
10.3 In all cases where defects or shortages in respect of Goods are complained of the Company shall be under no liability in respect thereof unless an opportunity to inspect the Goods is given to the Company before any use is made thereof or any alteration or modification is made thereto by the Buyer.
10.4 Subject to clauses 10.2 and 10.3 the Company shall make good any defect or shortage in the Goods and where appropriate replace any Goods damaged in transit as soon as it is reasonably able to do so, but otherwise shall be under no liability whatsoever or howsoever arising from such defect, shortage or damage.
10.5 Subject to clause 10.4 the Company shall remedy any defect in the supply of Services as soon as it is reasonably able to do so but otherwise shall be under no liability whatsoever or howsoever arising from such defect

11. WARRANTY

11.1 The Buyer shall satisfy himself of the suitability of the Goods or Services for any particular use or purpose and shall be totally responsible
11.2 If the Goods are in such a state or the Services so defectively supplied as would but for this condition entitle the Buyer to repudiate the contract and/or claim damages from the Company the Company reserves the right to repair or replace the Good or perform the Service (or relevant part thereof) again.

12. LIABILITY

12.1 Introduction
12.1.1 Nothing in clause 12 shall be deemed to exclude or restrict the Company's liability for death or personal injury resulting from negligence.
12.1.2 Each of the sub-clauses in clause 12 is to be treated as separate and independent
12.1.3 The Company is willing to undertake liability additional to that provided by this clause in exchange for a higher price
12.2 Exclusion
12.2.1 Clause 12.2 only covers defects caused by faulty design, manufacture, materials or workmanship. It does not cover defects caused by abnormal use, misuse or neglect.
12.2.2 The Company agrees that if any defect covered by clause 12.2 is discovered during the warranty period commencing with the date of delivery or supply, the Company will remedy any defect at its own expense or, in the case of Goods if it chooses to do so, replace them.
12.2.3 The Buyer cannot claim the benefit of this clause unless - he informs the Company of the relevant defect in writing within 7 working days of discovering it.
12.2.3a The Company will not accept any liability for defects in goods once they have been fitted. It is the buyer's responsibility to check the goods prior to installation.
12.2.4 The risk of accidental loss whilst the Goods are being returned will be borne by the Buyer
12.2.5 In consideration for receiving the benefit of this clause, the Buyer agrees that, apart from those terms set out in clause 10 and 11, all other terms, whether conditions, warranties or innominate terms, express or implied, statutory or otherwise, are excluded from the contract between the Company and the Buyer to the extent permitted by law (except where the Buyer deals as consumer within section 12 of the Unfair Contract Terms Act 1977 when the terms implied by sections 13, 14 and 15 of the Sale of Goods Act 1979 shall be implied into the contract).
12.3 Exclusion of Consequential Loss
The Company shall not be liable for any consequential or indirect loss suffered by the Buyer whether this loss arises from breach of a duty in contract or tort or in any other way (including loss arising from the Company's negligence).
Non-exhaustive illustrations of consequential or indirect loss would be

- Loss of profits
- Loss of contracts
- Damage to property of the Buyer or anyone else, and
- Personal injury to the Buyer or anyone else (except so far as such injury is attributable to the Company's negligence)

12.4 Limitation
The Company's total liability for any one claim or for the total of all claims arising from any one act or default of the Company (whether arising from the Company's negligence or otherwise) shall not exceed £1000 Or the contract price whichever is the greater.

13. FORCE MAJEURE

13.1 The Company shall not be liable for any failure to deliver the Goods or perform the Services arising from circumstances outside the Company's control.
13.2 Non-exhaustive illustrations of such circumstances would be act of God, war, riot, explosion, abnormal weather conditions, fire, flood, strikes, lockouts, Government action or regulations (UK or otherwise), delay by suppliers, accidents and shortage of materials, labour or manufacturing facilities.
13.3 Should the Company be prevented from delivering the Goods or performing the Services in the above circumstances, it shall give the Buyer written notice of this fact as soon as reasonably practicable after discovering it.
13.4 If the circumstances preventing delivery of the Goods or performing the Services are still continuing three months after the Buyer receives the Company's notice, then either party may give written notice to the other cancelling the contract.
13.5 If the contract is cancelled in this way, the Company will refund any payment which the Buyer has already made on account of the price (subject to deduction of any amount the Company is entitled to claim from the Buyer) but the Company will not be liable to compensate the Buyer for any further loss or damage caused by the failure to deliver the Goods or perform the Services.

14. SALES PROMOTION DOCUMENTATION

Whilst the Company takes every precaution in the preparation of its catalogue, technical circulars, price lists and its other literature, these documents are for the Buyer's general guidance only and the particulars contained therein shall not constitute representations by the Company and the Company shall not be bound thereby.

15. NOTICES

Any notice to be given hereunder shall be in writing and shall be deemed to have been duly given if sent or delivered to the party concerned at its address specified overleaf or such other address as that party may from time to time notify in writing and shall be deemed to have been served, if sent by post, 48 hours after posting.

16. CANCELLATION

The Company is prepared to accept the cancellation of a contract provided that it is in writing and is received by the Company:
(a) In the case of special orders before the manufacture of the goods has commenced;
(b) In the case of goods ordered from stock before the goods have been despatched;
(c) But subject to liability for any losses incurred by the Company in disposing of the goods.
In the event goods have been delivered within 30 days prior to cancellation, a restocking charge of 20% of the goods returned will be made by the company on values above £50 before VAT only.

17. MATCHING

For technical reasons it is not always possible to obtain an exact colour match between different production batches which have the same colour description. The Company therefore recommends that all products should be of the same batch. The Company will be under no liability whatsoever in respect of any mismatching of tiles and sheet with the same colour description where the tiles and sheet are of different batches.

18. ADVICE AND WARNINGS

(a) Without prejudice to any of the Company's rights under these terms or common law or statute the Company shall not be liable for any loss or damage suffered by the Buyer or any third party as a result of failure to follow any of the Company's recommendations with regard to the goods.

19. STILETTO HEELS

Where Stiletto heeled shoes are in use, floors are liable to suffer damage from intense point loading pressure. We therefore cannot be held responsible for any loss in appearance where such heels are in use.

20. SUITABILITY OF GOODS

If requested in writing to do so, we will use our utmost endeavours to give sound and honest advice as to the suitability of goods sold by us for a particular use or purpose, but we do not represent or warrant (and nobody has authority to represent or warrant) the fitness of any goods for any particular purpose or use, whether such use or purpose is known to us or not or any advice requested regarding installation.

21. ASSIGNMENT

The Buyer shall not assign or purport to assign or transfer the contract or the benefits thereof to any other person without prior written consent of the other.

22. PROPER LAW AND JURISDICTION

The Contract shall be governed by and construed in accordance with English law and all disputes arising in connection with the Contract shall be submitted to the jurisdiction of the English Courts.

23. HEADINGS

The headings of these conditions are for convenience only and shall have no effect on the interpretation thereof.

Revision Date: September 2020
